GETTING LABWORK DONE

Here are instructions for getting your labwork done when your Planned Parenthood Southeastern Pennsylvania (PPSP) healthcare provider orders labs.

1. Determine When to Schedule Your Lab Appointment

Follow these instructions for when to schedule your appointment based on how you take your medication:

Weekly injections	3-4 days after you take your shot
Biweekly injections	1 week after you take your shot
Tablets	3-4 hours after you take your tablets
Topical	Any time, just make sure they do not draw your blood from a site where you have applied your medication.

If You Are Getting Labs at Labcorp…

2. Schedule your Labcorp Appointment Online

- Go to Labcorp website www.labcorp.com
- Enter your zip code and select service from drop down menu "Routine labwork"
- Chose the most convent location to you and schedule an appointment
- Your lab order was sent electronically, you do not need to bring a paper lab order

3. Go to Your Labcorp Appointment

- Bring your insurance card, a photo ID, and a credit/debit card or HSA card to pay any copay

  NOTE: If the name on your photo ID does not match the name on your health insurance, tell your clinician so they can make a note on your lab order.
- Ask the lab tech to look up your electronic lab order using the name on your health insurance. (For billing purposes, your lab order must match the name on your insurance.)

If You Are Paying for Labs Out-of-Pocket

- You will pay PPSP for your labs on our sliding fee scale and then PPSP will pay the lab.
- Your clinician will note on the lab order, Labcorp is to “bill the client (PPSP),” not the patient.

Proprietary property of Planned Parenthood

4. Next Steps

- Labcorp will send your lab results directly to PPSP
- Your clinician will review your lab results
  - If your clinician does not need to consult with you further, they will send you prescription to the pharmacy. (Set up notifications with your pharmacy for timely alerts.)
  - If your clinician needs to discuss the results with you, someone from the health center will reach out to schedule a follow up appointment to do so.
- If you would like to view your results yourself, you can create a Labcorp Patient Portal at labcorp.com/results to access your results online.

If You Are Getting Labs at a PPSP Health Center…

2. Schedule a Lab-Only Appointment at Your Health Center

- Center City Philadelphia Location: Call 215-351-5560
- Pottstown Location: Call 610-326-8080
- West Chester Location: Call 610-692-1770

3. Go to Your Lab-Only Appointment

- For health center location and contact information, visit pptranscare.org

4. Next Steps

- It will take a few days for your labwork to be processed
- Your clinician will review your lab results
  - If your clinician does not need to consult with you further, they will send you prescription to the pharmacy. (Set up notifications with your pharmacy for timely alerts.)
  - If your clinician needs to discuss the results with you, someone from the health center will reach out to schedule a follow up appointment to do so.

If you need any further assistance, please call the GAC Service Coordinators at 215-351-5561.
