Is it just “puppy love” or is it the “real thing”? While it’s sometimes hard to tell the difference, teens can have healthy, loving relationships. Spend three hours engaged in a thoughtful conversation about teen “love” and dating. And, learn ways to incorporate discussions about healthy relationships into your program.

Upon completion, participants will be able to:

- Explain the complexity and intensity of teen love
- Identify signs of healthy and unhealthy relationships
- Identify the stages of a relationship (including breaking up) and several activities to implement with youth

*Breakfast is included. If you register for this training and the afternoon training lunch (served 12:00 p.m.-1:00 p.m.) will be included.
