

THIS IS WHO WE ARE

Creating a Healthier World for Women, Men, and Young People

For nearly a century, Planned Parenthood® has been one of the nation's leading providers of high-quality, affordable health care for women, men and young people, and the nation's largest provider of sex education. Planned Parenthood health centers and international partners provide birth control, testing and treatment for sexually transmitted infections (STIs), and lifesaving cancer screenings to millions of people in the U.S. and 10 other countries. With a presence in all 50 states and Washington, DC, Planned Parenthood has 59 affiliates, which operate approximately 700 health centers. Women, men, and teens from every community and income level view Planned Parenthood as their first-choice provider of care.

- One in five women in the U.S. has visited a Planned Parenthood health center.
- Planned Parenthood health centers provide health care that helps women prevent an estimated 516,000 unintended pregnancies and 217,000 abortions every year.
- Planned Parenthood's local partners in 13 countries serve more than one million individuals.
- Planned Parenthood websites, including Planned Parenthood en Español, receive an estimated 60 million visits each year.
- Seventy-eight percent of Planned Parenthood health care patients live with incomes of 150 percent of the federal poverty level or less, the equivalent of \$35,775 a year for a family of four in 2014.
- Every year, Planned Parenthood health centers provide the following services to 2.7 million patients, of whom 14 percent are African American and 22 percent are Latino:
 - family planning counseling and contraception to 2.1 million patients
 - more than 1.1 million pregnancy tests
 - nearly 400,000 Pap tests
 - nearly 500,000 lifesaving breast exams
 - screenings to 88,000 women whose cancer was detected early or whose abnormalities were identified and addressed
 - nearly 4.5 million tests and treatments for sexually transmitted infections, including 700,000 HIV tests, and diagnoses of more than 169,000 STIs
 - 1.4 million emergency contraception kits
 - education programs and outreach to more than 1.5 million people

PLANNED PARENTHOOD IS

HEALTH CARE

Contraception, abortion services, cancer screenings, testing and treatment for STIs

EDUCATION

Accurate sexual and reproductive health information for people of all ages - 24/7

ADVOCACY

Protecting reproductive rights and ensuring access to quality, affordable care for all

GLOBAL HEALTH

Supporting women's health and rights in developing countries around the world
