

THIS IS WHO WE ARE

Creating a Healthier World for Women, Men, and Young People

For nearly a century, Planned Parenthood® has been one of the nation's leading providers of high-quality, affordable health care for women, men, and young people, and the nation's largest provider of sex education. Planned Parenthood health centers and international partners provide birth control, testing and treatment for sexually transmitted infections (STIs), and lifesaving cancer screenings to millions of people in the U.S. and 10 other countries. With a presence in all 50 states and Washington, DC, Planned Parenthood has 68 affiliates, which operate more than 700 health centers.

- One in five women in the U.S. has visited a Planned Parenthood health center.
- Planned Parenthood health centers provide health care that helps women prevent an estimated 515,000 unintended pregnancies and 216,000 abortions every year.
- Planned Parenthood's local partners in 10 countries serve more than 725,000 individuals.
- Planned Parenthood websites, including Planned Parenthood en Español, receive an estimated 52 million visits each year.
- Seventy-nine percent of Planned Parenthood health care patients live with incomes of 150 percent of the federal poverty level or less, the equivalent of \$34,575 a year for a family of four in 2012.
- Every year, Planned Parenthood health centers provide the following services to nearly three million patients, of whom 15% are African American and 24% are Latino:
 - family planning counseling and contraception to 2.1 million patients
 - more than 1.1 million pregnancy tests
 - nearly 500,000 Pap tests, identifying nearly 75,000 women at risk of developing cervical cancer
 - 550,000 lifesaving breast exams, helping alert patients to possible cancers
 - nearly 4.5 million tests and treatments for sexually transmitted infections, including 700,000 HIV tests, and diagnoses of more than 157,000 STIs
 - 1.6 million emergency contraception kits
 - education programs to more than one million people
