

## Registering for the Patient Portal from Email Invitation

The Patient Portal is an easy and convenient way to manage your health information and communicate privately with your care team. The Patient Portal is available 24 hours a day, 7 days a week, so you are able to access your information, ask questions, and make requests on your schedule! Be sure to take advantage of all of the benefits of the patient portal, such as the ability to:

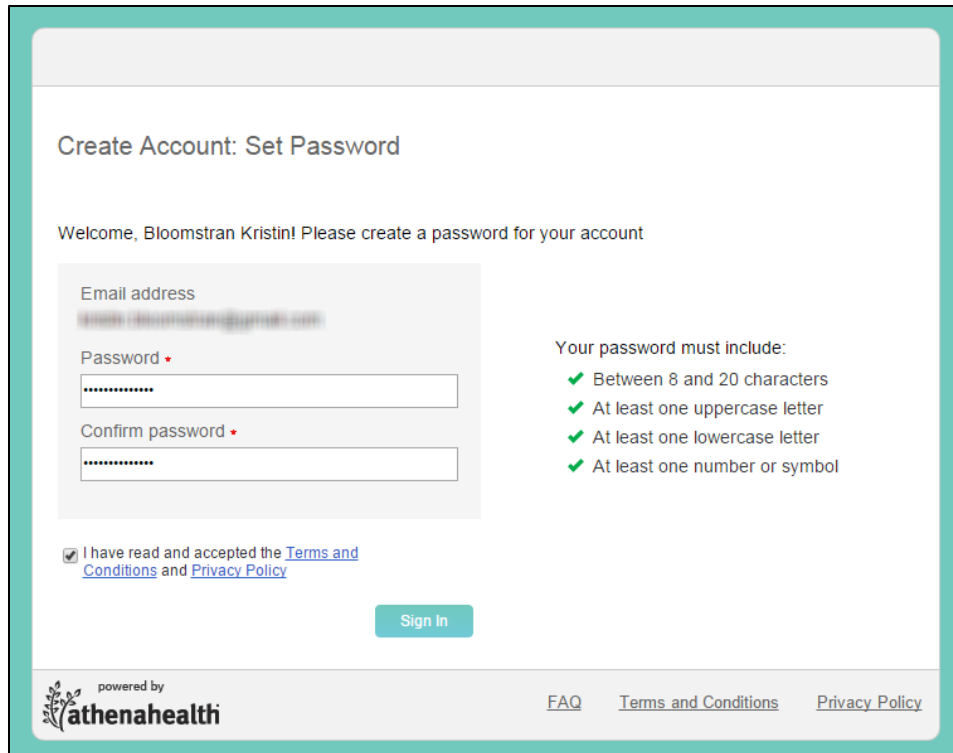

- a. View appointment history, care summaries, medication lists, and vaccination history
- b. Privately and securely ask questions to your provider or care team
- c. Request medication refills
- d. Request appointments
- e. View and manage bills and statements
- f. And much more!

If you were unable to complete your Patient Portal registration while you were at your providers' office, you will receive an invitation to register through the email address they have on file. Follow the steps below to create your private, Patient Portal account today!

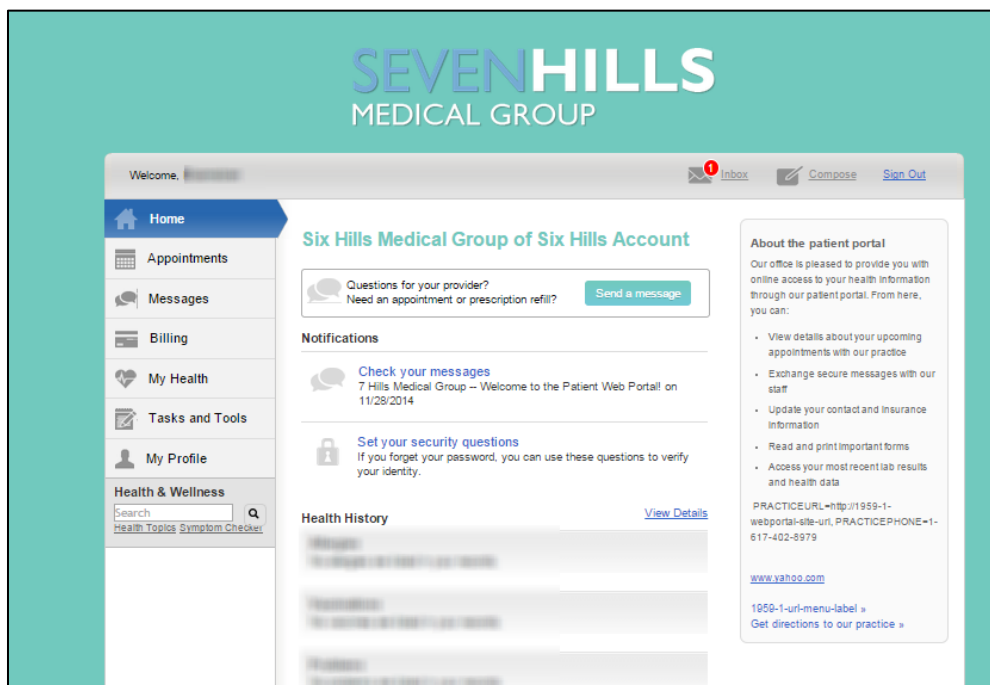

1. Locate and open the invitation email sent to the email address you provided to our office staff. Click the **Register** button to begin the registration process.

2. Verify your identity by phone call or text message, by selecting the radio button and clicking **continue**. You will receive an automated phone call at the number you provided.
3. Enter the temporary password you receive and click **continue**.

- You will be prompted to create a password for your account. You must enter it once, and then enter it a second time to confirm. For your security, your selected password must meet specific parameters, outlined on the right side of your screen. Green checkmarks will appear next to each password requirement as they are being met. Once finished, click the **Sign In** button to enter the patient portal.

You have now created your Patient Portal account!
