We Believe:

Sexuality is a natural, healthy, life-long part of being human.

Every individual has a right to pursue sexual health information and services without fear, shame, or exploitation. That right involves access to adequate, accurate, and age-appropriate information about sexuality, including the advantages and disadvantages of sexual expression.

All people, regardless of gender or sexual orientation, have rights that need to be respected and responsibilities that need to be exercised.

It is unacceptable to sexually pressure, force or exploit another person.

In a pluralistic society, we must respect diverse sexual attitudes and behaviors as long as they are based on ethics, responsibility, justice, equality and non-violence.

Information about becoming pregnant and about postponing, preventing, continuing or terminating a pregnancy should be easily available; the choice of whether or not to parent should be free and informed.

Every child deserves to be wanted, loved and cared for.

Abstaining from sexual intercourse is the most effective method of preventing pregnancy and sexually transmitted infections.

Young people explore their sexuality as part of a process of achieving sexual maturity; adolescents are capable of expressing their sexuality in healthy, responsible ways.

There are many healthy ways to express sexual feelings, alone or with a partner; sexual intercourse is only one form of sexual expression.

Uninformed or irresponsible sexual behavior poses risks.

Women, men, girls and boys benefit from fairness and flexibility in gender roles.

Individuals and society benefit when children are able to discuss sexuality and their parents and/or other trusted adults.

Individuals and society benefit when childbearing is postponed until maturity.

Please sign if you endorse these Planned Parenthood of Indiana statements of belief.
