

This is Who We Are

Creating a Healthier World for Everyone

For nearly a century, Planned Parenthood® has been one of the nation's leading providers of high-quality, affordable health care for women, men, and young people, and the nation's largest provider of sex education. Planned Parenthood health centers and international partners provide contraception, testing and treatment for sexually transmitted infections (STIs), and lifesaving cancer screenings to millions of people in the U.S. and 12 other countries. With a presence in all 50 states and Washington, DC, Planned Parenthood has 57 affiliates, which operate more than 650 health centers. Women, men, and young people from every community and income level view Planned Parenthood as their first-choice provider of care.

- An estimated one in five women in the U.S. has visited a Planned Parenthood health center.
- Planned Parenthood health centers provide health care that helps women prevent an estimated 579,000 unintended pregnancies and 197,000 abortions in a single year.
- Planned Parenthood's local partners in 12 countries serve more than one million individuals.
- Planned Parenthood websites, including Planned Parenthood en Español, receive an estimated 60 million visits in a single year.
- Seventy-five percent of Planned Parenthood health care patients live with incomes of 150 percent of the federal poverty level or less, the equivalent of \$36,375 a year for a family of four in 2015.
- Planned Parenthood affiliates provide the following services to 2.5 million patients, of whom approximately 15 percent are African American and 23 percent are Latino:
 - family planning counseling and contraception to more than 2 million patients
 - nearly 1.2 million pregnancy tests
 - more than 270,000 Pap tests
 - more than 360,000 lifesaving breast exams
 - screenings to nearly 72,000 women whose cancer was detected early or whose abnormalities were identified and addressed
 - more than 4.2 million tests and treatments for sexually transmitted infections, including more than 650,000 HIV tests, and diagnoses of nearly 172,000 STIs
 - more than 930,000 emergency contraception kits
 - education programs and outreach to 1.5 million people

Planned Parenthood Is

Health Care

Contraception, abortion services, cancer screenings, testing and treatment for STIs

Education
