MISSION:

Planned Parenthood Mid-Hudson Valley empowers individuals to make independent, informed decisions about their sexual and reproductive lives by providing access to high quality, evidence-based and medically-sound health care and educational services, and by promoting and advocating for public policies to make those services available to all.

Planned Parenthood Mid-Hudson Valley’s services allow individuals to manage their fertility regardless of income, marital status, race, ethnicity, sexual orientation, gender expression, national origin or residence. We assist our clients to have the self-confidence to make voluntary sexual and reproductive health decisions while preserving the individual’s right to privacy.

The year 2015 presented numerous challenges to Planned Parenthood nationally. To start with, a series of highly edited and false videos were released by a fake company called the Center for Medical Progress, purporting to show Planned Parenthood engaged in illegal activities. Secondly, a gunman attacked the Planned Parenthood Health Center in Colorado Springs, killing three people. The investigations into these incidents continue. However, the key perpetrator of the video scam has been charged with a second-degree felony charge. Through the dedication and resilience of Planned Parenthood donors and staff in Colorado, the Colorado Springs Health Center has reopened.

We at Planned Parenthood Mid-Hudson Valley recognize that there are those who will do anything to try to stop us from providing quality, confidential reproductive healthcare to women in our communities. These incidents prove that we must be even more vigilant now and into the future. In order to ensure the highest level of safety for our patients and staff, the Board of Directors of PPMHV authorized a significant expenditure to immediately increase the level of security at all of our health centers. This includes new key access, upgraded cameras and monitoring equipment, personal safety communications systems, and advanced training for responding to “a shooter in the building”. In the aftermath of the Colorado Springs assault, we think it is important to reassure the general public that every local police department, as well as the New York State Police, are partners with us in providing security training and increasing surveillance at our centers.

We thank all of our donors who are stepping up to help us provide the highest level of security possible for patients who are merely trying to take care of their reproductive health needs, and for the staff who are there to serve them. No one should feel threatened for seeking screenings for cervical cancer, clinical breast exams, testing and treatment for sexually transmitted diseases, and abortions - nor should the staff that care and provide for them every day – “No Matter What!”

Get "Spot On"!

All the information in "Spot On", a new app, comes directly from the world-class sex educators and healthcare providers at Planned Parenthood. Users of the app know they are getting trustworthy, accurate information and support from a reliable source.

"Spot On" provides a fun and simple way to learn about the menstrual cycle and the female body. The app allows women to be the boss of their cycle, with reminders to stay on track and tips in case a mistake is made. "Spot On" allows women to track their moods, symptoms and activities so they can learn how their cycle affects their body and what affects their cycle. Understanding what’s up with your body has never been easier; "Spot On" interprets data to show personalized patterns and insights.

PPMHV was one of the first affiliates to put it on our website. You can access it by going to the App store or through our website, ppmhv.org.
"Trapped" Screening in the Mid-Hudson Valley

PPMHV hosted a free film screening and discussion at SUNY New Paltz featuring the new documentary "Trapped" and three panelists: Katrina Thies, R.N. at PPMHV, Yonah EtShalom, N.P. at PPMHV, and Elizabeth Greenblatt, Capacity Building Coordinator at The Sea Change Program.

"Trapped" follows the struggles of clinic workers and lawyers who are on the front lines of the battle to allow millions of American women access to safe and legal abortion.

As conservative state legislatures around our country pass TRAP (Targeted Regulations of Abortion Providers) – laws that limit a woman’s choice for safe and legal abortion – many reproductive health clinics are fighting to remain open.
The Poughkeepsie Healthy Black and Latino Coalition, under Planned Parenthood Mid-Hudson Valley’s leadership, brought the “Celebrating Black History Month with Healthy Living” event to our community. Numerous groups came together to offer HIV testing, anxiety and depression screenings, and flu vaccinations. Dance demos, karate and displays by local artists were also part of the day. Expert panelists included health professionals from the area as well as from PPMHV.

The event was a great success and well attended. Those who attended were able to take advantage of resources and information from over 20 vendors that raised awareness of available resources to community members.

We continue our work within the African-American communities to promote health and preventative healthcare.
Our advocacy efforts reach across the spectrum of pro-choice supporters — young and old, veterans of our cause and new activists — to make PPMHV a visible and powerful agent for change at the local, state and national levels. We advocate for safe, affordable and accessible reproductive healthcare for women.

If legislated, the Comprehensive Contraception Coverage Act (CCCA), a provision of the Affordable Care Act (ACA), would make it possible for women to access contraception without co-pays. The CCCA requires insurers to cover contraceptives prescribed to men, including male sterilization, with no cost sharing; allows patients to access emergency contraception (EC) at a pharmacy with a non-patient specific prescription and have it covered; and provides coverage for the dispensing of 12 months of contraceptives at one time. The New York State Assembly passed the CCCA. It awaits action in the Senate.

We stand together in collaboration with many supporters to engage in coalition building, education and advocacy, and to ensure the availability and access to affordable, quality reproductive healthcare for women, men and families.
We Stay Connected via Social Media

PPMHV, like many others in healthcare, expanded our use of social media to support, promote and increase the spread of information and data. Social media helps us share information about STD and HIV testing, advocacy efforts and community events. The open, public forums of social media help us reach many more individuals and allow us to become an integral part of the community. We connect even before we are needed!

In 2015, we had 1,540 Facebook followers that liked 1,515 of our posts and 1,094 Twitter followers with 1,373 retweets. The number of subscribers to our YouTube channel has increased and our videos have been viewed over 10,000 times.

The website is also a great way to get information, so please visit us at ppmhv.org.

We’re Reaching Out... To Engage More Community Members

We are reaching deeper into our communities to meet a spectrum of health, social and educational needs that impact communities at large. Our newly combined Poughkeepsie Healthy Black and Latino Coalition aims to bring service providers, Government, and the greater community together to address sexual and reproductive health.

In Poughkeepsie, five Community Health Promoters and four Promotores engaged in a total of 153 outreach activities at soup kitchens, churches, food pantries, county jails, homeless shelters, community health fairs and high schools and universities throughout our four-county service area. With 3,637 total outreach encounters, 130 referrals were made to our health centers.

The City of Newburgh saw seven Community Health Promoters and six Promotores initiate 176 total outreach activities, which resulted in 135 total referrals to PPMHV health centers.

Each year, we host Circles Prom, an evening of fun, dancing and music for LGBTQ youth and their friends. The evening provides a safe space for them no matter what their sexual orientation or gender identity. Youth from Dutchess, Orange and Ulster counties danced the night away. Our collaboration with local organizations further ensures support for the LGBTQ community.
We Care About Our Patients, and They Care About Us

Staff is and has always been very professional, friendly and comforting for the past 10 years that I have been coming here.”

Excellent, friendly, knowledgeable staff. As a first timer here, I was VERY satisfied with everyone I met on this otherwise troublesome day.”

You have always been an incredible resource and everyone that I’ve interacted with here has been so understanding and accepting. I get a feeling/experience here that I can’t get at other doctors’ offices.”

The medical assistant at the Newburgh location was excellent. She was friendly, she explained the procedure to me, and she went over everything from the cost to aftercare. She was also able to perform my bloodwork and ultrasound providing a continuum of care that was flawless. I really appreciate you guys having her on your staff.”

Everyone here has always been very helpful with questions I have and with making sure I can afford the healthcare I need. I get a comprehensive exam as well.”

They helped me when I had no insurance.”

Everything is convenient and they help you in any way they can. Planned Parenthood is the only way I’ve gone so long without getting pregnant.”

Great place, nice, caring people. I’ve been coming here for 23 years!”

These comments are from the women and men that our medical staff serves on a daily basis. With 4,718 new patients in 2015, we take pride in knowing that PPMHV is the trusted community resource for so many patients.
2015

Education and Outreach
By the Numbers

Educational Programming:
860 sessions conducted reaching 10,133 participants, including 5,252 males

- 418 sessions conducted in schools and colleges reaching 6,862 students
- 442 sessions conducted at numerous community based organizations and residential youth facilities reaching 3,271 participants

Outreach:
479 activities conducted
21,763 people reached through various outreach activities, almost double the number reached last year!

Diversity Initiatives in Poughkeepsie and Newburgh
We have increased our diversity outreach activities so we are able to impact more people in our communities who need and rely on our education and services.

- 329 outreach activities conducted, double from last year!
- 15,658 encounters, almost triple our encounters from last year!
Our Next Generation of Leaders

We continued our collaboration, outreach and advocacy activities with local college groups at Bard, Marist, SUNY New Paltz and Vassar. We also led "Dorm Storms" (door to door canvassing) at SUNY Orange, SUNY Ulster, SUNY Sullivan and Dutchess Community College, providing birth control education and information on STDs and testing to students.

We collaborated with Student Health Services and offered information and services at a total of 47 health fairs, educational workshops and seminars. We reached over 1,050 college students throughout the year.

Our 16 Youth Health Promoters (YHPs) were trained to educate their peers in Kingston, Newburgh and Poughkeepsie on sexual and reproductive health. Our YHPs reached 2,543 teenagers in these communities!

Parties to Support Those in Need of Healthcare

We had over 700 people attend our fundraising parties and events this year.

Our special events raised almost $300,000 which is money we desperately needed to help patients in the mid-Hudson Valley with basic healthcare. The Spring Gala traditionally starts our special event season; we had a near sell-out crowd at the FDR Presidential Library and Museum site that raised over $130,000.

The Woodstock party featured a succulent buffet, lively auction and dancing between the raindrops, while Millbrook hosted a patio full of enthusiastic supporters on a bright summer night in July. Rhinebeck boasted a tent bursting at the seams with friends who sampled wonderful food and actively bid on lovely silent auction items from local artists and shops.

For the first time, we held a garden party in the arboretum at Thomas Bull Park in Orange County. It was a beautiful fall day. Flowers abounded and supporters listened to the story of a young woman whose life was changed because of her involvement with Planned Parenthood. Local Hudson Valley goodies were enjoyed by all and people mentioned that they’d be back next year.

All in all we had a terrific special event season which was made possible by all the dedicated supporters of PPMHV. You are the best!

Generous Bequest

Margaret B. Hicklin, a longtime donor and friend, passed away last year. She left a bequest that will help fund healthcare services to those in the mid-Hudson Valley who need them most. Born in New York City in 1920, Margaret found her passion for women’s causes while working for Avon Products. The Avon Foundation for Women, the philanthropic arm of Avon Products, contributes to and supports important women’s issues, which were close to Margaret’s heart.

Empowerment of women and giving back to the community remained a staple of the long life Margaret lived. We are so appreciative to her for this wonderful gift. She will never know the countless lives she has touched with her generosity.
The Lucy Cohan Humanitarian Award

Anne Strain

Anne became an escort volunteer for Planned Parenthood in Poughkeepsie several years ago. She has always believed in Planned Parenthood and the important work we do providing women’s health services. Given the outside protesters who make the environment potentially uncomfortable when clients arrive at the clinic, Anne has found it meaningful and important to help provide a warm welcome to those seeking Planned Parenthood services.
The Lucille Pattison Young Leaders Award
Elizabeth Pelaez

The Lucille Pattison Young Leaders Award, inspired by a pioneering woman known for her dedication to women’s reproductive rights – and her courage, strength, wisdom and knowledge – is awarded annually to a young person who shares Lucille’s passion. The award celebrates those who help the most vulnerable populations in our community, who serve as an example to others through volunteer leadership and who aspire to change things for the better.

At age 15, while pregnant with twin girls, Elizabeth Pelaez became involved with PPMHV’s teen parenting program, TASA. She became a health promoter and educated many young people in our community on how to avoid an unwanted pregnancy. Seven years later, Elizabeth earned her GED and is an employee of PPMHV. She plans to attend college with a goal of working in policy and legislation. Elizabeth’s life turned around because of her involvement with Planned Parenthood.
Donor List

We are grateful to our friends and supporters whose generosity helps us continue our mission of providing reproductive and sexual healthcare to those who need it most in the mid-Hudson Valley. The patients we help, our staff and Board appreciate your support. Thank you.

The list below represents gifts made between January 1, 2015 and December 31, 2015.
