

ABOUT YOUR VISIT

Infection Check

Thank you for choosing Planned Parenthood of Michigan (PPMI) for your reproductive and sexual health care. We strive to exceed your expectations by providing high quality, inclusive, nonjudgmental, care. Our goal is to offer care that puts you in the center. We will give you information and support so you can make the best decisions for your health.

ABOUT YOUR VISIT

At this visit you will meet with a licensed clinician. They will review your medical history and complete any necessary physical exam and testing to best meet your care needs. To learn more about sexual and reproductive health, including infections and treatment options, please visit [PlannedParenthood.org](https://www.plannedparenthood.org).

Sexually transmitted infection (STI) testing will be done if needed or desired. The health care team will answer your questions about all testing and treatment.

If you are diagnosed with an infection at the visit or have known exposure to a treatable STI, treatment will be provided. Planned Parenthood stocks many treatments in our health centers, or you can request we send a prescription to the pharmacy of your choice. Treatments we do not stock will be sent to your pharmacy of choice.

We ask that you do not bring children to your in-person visit. We know that this is sometimes unavoidable, and we will do our best to provide you the care you need while ensuring the safety of you and everyone in our health centers.

We require all people wear a mask while in the health center. You will be screened for COVID symptoms and exposure when you arrive. If you have any symptoms of COVID-19 or a recent high-risk exposure, please cancel and reschedule your appointment when resolved.
