

# Marie Hamilton

September 7, 1948- April 5, 2008

Marie Hamilton was a Baltimore native and a committed Planned Parenthood of Maryland (PPM) employee for over 25 years. She began her PPM career as a Health Care Associate and worked her way up to Center Director at our Towson health center.

A loving wife, mother, friend and community member, Marie played an active role in her church and enjoyed travel, fine jazz and good cooking. Marie's generosity was unmatched; she kept her doors open to those in need.

Marie developed lasting relationships with patients and coworkers alike. One of her favorite responsibilities was managing our vasectomy program, especially assisting during the visit. Her friends and coworkers describe her as "conscientious, committed and compassionate" and "always able to see the silver lining".

Marie is greatly missed by those who had the privilege of knowing her.
