

## ABOUT YOUR VISIT

### In-Clinic Abortion

---

*Please note: you will speak with a health care professional at your appointment about your medical information and all of your options, and you will be given the opportunity to ask questions. You will be given information about what to do in an emergency and information about your birth control needs in the future.*

#### PREPARING FOR YOUR VISIT

- At least **24 hours prior** to your appointment you **MUST** access information about the abortion procedure you are undergoing and information on your pregnancy options required by the State of Michigan. [This information can be accessed here.](#) You must print off the time stamped document. **Failure to print out this document, or having a time stamp that is less than 24 hours before your appointment time, will result in the need to reschedule.** You can also access this information by visiting any Planned Parenthood of Michigan location and then bringing that information with you to your appointment. **Failure to bring the information with you will result in the need to reschedule.**
- Please [view the educational video posted here](#) prior to your appointment. Watching this video may answer your questions, prepare you for what to expect, and may decrease the amount of time you are in the health center.
- If you are 18 years or older, you must bring a photo ID showing proof of age to the appointment. We will not be able to provide services without it.
- If you are under the age of 18, you must have parental consent or a judicial bypass to have an abortion in the State of Michigan. If you have parental consent, your parent will need to bring your birth certificate, their photo ID, and your photo ID if you have one (school ID is OK) to the appointment. If you are a minor and obtain a judicial bypass from a judge, you must bring all paperwork and your photo ID if you have one (school ID is OK) to the appointment. If you have questions about parental consent or judicial bypass, please call us at 1 800-230-PLAN (7526) or 734-926-4800.
- It is illegal under Michigan Law to coerce a person to have an abortion. Help is available if you are being threatened or intimidated by calling the National Domestic Violence Hotline at 1-800-799- SAFE (7233).
