

# This is Who We Are

## Creating a Healthier World for All

Planned Parenthood is the nation's leading provider and advocate of high-quality, affordable sexual and reproductive health care for all people, as well as the nation's largest provider of sex education. With more than 600 health centers across the country, Planned Parenthood organizations serve all patients with care and compassion, with respect, and without judgment, striving to create equitable access to health care. Through health centers, programs in schools and communities, and online resources, Planned Parenthood is a trusted source of reliable education and information that allows people to make informed health decisions. We do all this because we care passionately about helping people lead healthier lives.

- An estimated one in five women in the U.S. has visited a Planned Parenthood health center.
- Planned Parenthood health centers provide health care that helps prevent an estimated 332,600 unintended pregnancies in a single year.
- Planned Parenthood Global's partners provided health services to 950,000 people and trained more than 15,000 advocates.
- Planned Parenthood websites, including Planned Parenthood en Español, receive an estimated 178 million visits in a single year.
- In 2020, of Planned Parenthood patients who report their income, over 70% live with incomes at or below 150% of the federal poverty level, the equivalent of \$39,369 a year for a family of four.
- Planned Parenthood affiliates provide the following services to 2.1 million patients – 58% of whom are people of color – including more than 514,000 patients who identify as Latino and nearly 350,000 patients who identify as Black:
  - family planning counseling and contraception to more than 1.8 million patients
  - nearly 1 million pregnancy tests
  - almost 200,000 Pap tests
  - over 170,000 breast exams
  - more than 4.45 million tests and treatments for sexually transmitted infections, including more than 672,000 HIV tests, and diagnoses of nearly 246,000 STIs
  - more than 505,000 emergency contraception kits
  - screenings to more than 60,000 patients whose cancer was detected early or whose abnormalities were identified and addressed
  - education and outreach programs to 563,000 people, in spite of pandemic constraints on in-person instruction
  - more than 5.6 million engagements with digital education tools and video resources

## Planned Parenthood Is

### Health Care

Contraception, abortion services, cancer screenings, testing and treatment for STIs
