

Preparing for your appointment:

- If you are taking any medications for a chronic condition, please bring a list of your current medications to your appointment. Please take all of your medications as you normally would.
- We encourage you to bring anything that will help you feel comfortable before and during your appointment. This could include snacks, entertainment such as books or music (with headphones), or a sweater or sweatshirt.
- Your plan of care may include having blood drawn. Please be well-hydrated.
- Please contact us at least 24 hours in advance to cancel or reschedule your appointment.
- If you are late, we reserve the right to reschedule. Please leave yourself plenty of time to get here.
- We are able to see patients on a walk-in basis as clinic flow allows. If you have not made an appointment but would like to be seen, come to one of our clinics during open hours or call 518-434-5678. Please note walk-in availability cannot be guaranteed over the phone and we may not be able to accommodate every request to be seen same-day without an appointment. If you would like to schedule an appointment, you can do so online at uhpp.org or over the phone by calling 518-434-5678.

Contraceptive implant (Nexplanon) insert

- You do not need to have an empty stomach for this procedure. We encourage you to eat your regular meals before the appointment, and please take all of your medications as you normally would.
- Do not have unprotected sex for at least three weeks before your appointment.
- If you're using another birth control method, continue using it consistently and correctly until your appointment. If you are not using another birth control method, use condoms or do not have sex.
