MISSION STATEMENT

Planned Parenthood Northern California generates healthier communities through the delivery of quality sexual and reproductive health care services.

Message from our Board Chair and CEO

Dear Planned Parenthood Northern California (PPNorCal) Supporter,

In the Planned Parenthood world, we often say we’re in this together. There is no clearer evidence of this than now. This moment is very unsettling for many reasons with the same difficult challenges experienced throughout our communities. Responding to the coronavirus overwhelmingly defined PPNorCal’s work during the last months of our Fiscal Year 2020 (FY20) which launched on July 1, 2019 through June 30, 2020.

By January 2020, we were experiencing one of our strongest years in providing patient care, and then in February, the COVID-19 crisis began to emerge. We are proud of PPNorCal’s proactive approach to ensuring our patients, staff, and supporters’ safety. We quickly shifted all health center operations to meet CDC recommendations, made it easier for staff to work from home, and cancelled all in-person gatherings for the foreseeable future.

We continue to remain focused on effectively providing health care services to our patients in the safest way possible. We know that with COVID-19 still present in our communities essential sexual, reproductive care cannot wait or be delayed.

In the final month of FY20, we celebrated several U.S. Supreme Court decisions. One struck down a medically unnecessary Louisiana abortion restriction and prevented states throughout the country from further deteriorating abortion access for now. Others protected the highly successful DACA program and prohibited employers from discriminating against the LGBTQ+ community. We hope you share our excitement with these Court decisions.

Like many of you, we are feeling the effects of this prolonged crisis. We are working hard to support one another because it is the only way to support those who need care. So, we extend our heartfelt thanks for your continued support and commitment to PPNorCal.

We remain resilient because you continue to stand with us!

This FY20 annual report summarizes Planned Parenthood Northern California’s activities from July 1, 2019 - June 30, 2020. We invite you to enjoy the highlights of our work.

Be well and take care,

Nicole M. Barnett, RN. MBA, DHSc
Chair, Board of Directors

Gilda Gonzales, MPA
President and CEO
We Are Health Care

Accreditation Success

Planned Parenthood Northern California (PPNorCal) staff and board worked hard to prepare for accreditation, which took place December 2-12, 2019. We’re very excited to share that PPNorCal received the highest designation of “Fully Accredited.” For two weeks, the on-site review team visited health centers, conducted interviews, cross-examined our processes and procedures, audited medical records, and carefully looked at every one of our departments. Not only did we pass accreditation with no significant findings, but we also received high accolades. Several surveyors shared exceedingly complimentary remarks about the care we provide and our rapport with patients.

WHAT IS ACCREDITATION?

Accreditation helps protect the Planned Parenthood Trademark and ensure delivery of high-quality care. It is an appraisal of policies, practices, and programs every 3-4 years.

Administered by the Accreditation and Evaluation Department (AED) within the Health Care Division of Planned Parenthood Federation of America.

Innovative Research

PPNorCal remains committed to advancing knowledge in science and public health by participating in meaningful research. This past year, we conducted a pre-clinical specimen collection study and are participating in a clinical study in partnership with a diagnostics company developing a new rapid chlamydia and gonorrhea test for multi-site testing. This test will provide results in less than 30 minutes instead of 3-4 days, which is the current standard practice.

The first portion of the study aimed to establish the settings of the test. The second study, launched in Q4 with enrollment ongoing, aiming to evaluate the test’s sensitivity and specificity in female specimens. Helping to bring this point-of-care test to market will have a meaningful and critical influence in elevating patient care at PPNorCal and beyond.

Providing Essential Health Care Amid a Pandemic

The COVID-19 public health crisis presented us with unprecedented challenges in continuing to provide essential care to our patients. Using the guidance from the California Department of Public Health (CDPH), the Centers for Disease Control and Prevention (CDC), and under the leadership of our Chief Medical Officer, Dr. Sara Kennedy, we are ensuring the safety of our patients and staff. Proudly, all 17 health centers remain open, providing timely health services, including abortion.

Before COVID-19, the other emerging public health risk was the rising rates of STIs. PPNorCal continues to lead in responding to the STI crisis by increasing the screening, diagnosis, and treatment of gonorrhea, chlamydia, and syphilis.

By providing essential reproductive health services, we are crucial to the overall health care system’s success, as we keep patients out of hospitals and emergency rooms. We also established a highly successful telehealth program during this pandemic, now serving 20% of our total patient volume.

This public health crisis demonstrates the critical importance of investing in all levels of the health care safety net. PPNorCal is proud to provide reproductive health care and remain a trusted resource for sexual health information, during and after this crisis.
We Are **Community**

**Case Management Services**

This fiscal year, the PPNorCal Case Management team in Solano County continued to deliver frozen and fresh food to our families who experience food insecurity. Our collaboration with the Food Bank of Contra Costa and Solano has allowed us to provide 1264 bags of food to 68 families.

Additionally, our Case Managers provided critical wrap-around support services to approximately 120 clients by supporting them with services like; transportation assistance, temporary housing/rental assistance, job referrals, and general support to ensure the clients enrolled in high school or college graduate successfully.

We Are **Education**

**Our Education team provides communities with comprehensive, medically accurate, age-appropriate sexual health education to students, community-based organizations, teachers, and health professionals. Our presentations and materials are compliant with the California Healthy Youth Act (CHYA) and are available on a variety of topics tailored for each audience. This past year, our education team launched our Online Education Initiative and has delivered sex education via Webinars and Facebook Live to over 13,000 individuals. Some Webinar topics included: How to Answer Difficult Sex Ed Questions, How to be an Askable Adult, and Understanding Sexual Identity.**

Our Education team provides communities with comprehensive, medically accurate, age-appropriate sexual health education to students, community-based organizations, teachers, and health professionals. Our presentations and materials are compliant with the California Healthy Youth Act (CHYA) and are available on a variety of topics tailored for each audience. This past year, our education team launched our Online Education Initiative and has delivered sex education via Webinars and Facebook Live to over 13,000 individuals. Some Webinar topics included: How to Answer Difficult Sex Ed Questions, How to be an Askable Adult, and Understanding Sexual Identity.

Our peer education theater group, Spare Change, completed the year with 15 participants. Spare Changers attended at least 50 hours of professional pieces of training hosted by PPNorCal staff and other community-based organizations. Due to COVID-19, all teachings and performances had to be canceled. Instead, Spare Changers spent their time making audio and video recordings and graphic art pieces to increase social media youth engagement.

- **10,274** students were provided with comprehensive sex education
- **10,706** people were connected through various outreach events
- **269** people received professional development training via 16 sessions
- **13,000** people viewed 12 Facebook Live “Sex Ed Friday” broadcasts
We Are Stronger Together: Fundraising Support

Acts of Courage
On February 27, 2020, we gathered with fierce supporters for our annual Acts of Courage event at Bimbo’s 365 Club. We were so grateful to be joined by the dynamic sex-expert Dr. Ruth K. Westheimer and celebrity comedian Greg Proops. Together in conversation with PPNorCal CEO Gilda Gonzales, the room was full of laughter, determination, and inspiration. The electric energy of the evening could be felt by everyone as we enjoyed delicious food, signature cocktails, and celebrated our many PPNorCal accomplishments! We are grateful to all our generous supporters for coming together for an unforgettable evening of celebration.

PPNorCal Community Ambassadors
To honor our wonderful Pop-Up event hosts and keep our supporters engaged during social distancing, we created the PPNorCal Community Ambassadors. This group will respond to different tasks and challenges throughout the year. From hosting fundraisers on social media to sewing face coverings for our health centers – our Ambassadors will serve as key allies in advancing our Planned Parenthood mission. To learn more or become a PPNorCal Community Ambassadors, contact us at info@ppnorcal.org.

Pop-Up Events
We are so grateful for the passion and dedication of our supporters throughout Northern California. Pop-Up events are supporter-led fundraising initiatives that vary from comedy nights to cocktail parties. Partnerships such as these help us to raise crucial funds while expanding our outreach. This year we were thrilled to be the beneficiary of many popular events including:

• SF Bake Sale for Planned Parenthood, where over 30 local bakers came together to bake for reproductive rights;
• Honoring Our Allies – cocktails for a cause event at the San Francisco Aquarium;
• Witches Walk, a women’s led march in Lafayette; and
• Numerous house concerts, parties, and brunches!
San Francisco Flagship
The new San Francisco PPNorCal Flagship Health Center will be completed this year. Construction was paused in March to address the shelter-in-place order and implementation of new guidelines to ensure the on-site workers’ health and safety. Despite these issues, we continue to make progress and will meet our plan of completing the project later this year. The flagship will allow us to care for more patients, improve their overall experience, and significantly reduce the wait time to schedule an appointment. Demand for our services in San Francisco reached record highs in the past years, so the flagship’s opening is critical to the health and well-being of our community. Our vision of creating a bold, beautiful, safe space for our patients is becoming a reality – thank you to our supporters and community partners!

We Are the Future

The Safe Haven Campaign
To continue offering inclusive, comprehensive sexual/reproductive care to those who need it the most, we are proud to announce the Safe Haven Campaign. Together, we will act boldly to build a better, more equitable future for all our patients. We have set a goal of $2,000,000 by January 2022, which will reduce disparities in access to health care and secure our haven.

San Francisco City and County Legislation
Public Affairs worked with the San Francisco Board of Supervisors to adopt legislation that was a first of its kind to restrict city/county business in twenty-two states with restrictive abortion laws. Additionally, public affairs advocated for an investment in health center security at the Valencia Health Center. San Francisco City and County made a two-year historic investment to fund health center security.

We Are Advocates

Choices Breakfast
On January 24, 2020, Public Affairs held our annual Choices Breakfast in Eureka to celebrate the anniversary of Roe v. Wade. Clergy for Choice was the 2020 recipient of the Champion for Choice Award. President and CEO Gilda Gonzales moderated a panel that included two of our rural clinicians and Planned Parenthood Affiliates of California, Chief Legal Counsel Maggy Krell.

2020 Census
Planned Parenthood Northern California was awarded grant dollars to conduct census outreach throughout the affiliate service area. The public affairs team collected over 7,000 census pledges from supporters and patients. Planned Parenthood Northern California had the highest number of census contacts of all Planned Parenthood affiliates participating. Due to COVID-19, outreach shifted to a food distribution program in partnership with organizations in San Francisco, Concord, Vallejo, and Antioch. More than 400 food bags have been distributed to clients and supporters in need, along with educational materials explaining how to participate in the Census.

Monument Crisis Center
Thank you to Planned Parenthood Northern California for the donation and outreach materials for the 2020 Census. We are glad to join the effort to be sure that everyone in our community is counted!

The Women’s Building of San Francisco
Thank you Planned Parenthood Northern California for the generous donation! The #Census goodies are a great addition to our Food Pantry grocery bags!
We Are Committed

PPNorCal Champions Diversity, Equity, and Inclusion

Considering recent events, we wanted to share how PPNorCal has embraced diversity, equity, and inclusion (DEI) values throughout our organization. Dismantling systemic racism begins with acknowledging it and requires continued involvement and commitment, which is why PPNorCal launched its DEI initiative three years ago.

Since 2017, ongoing learning sessions and professional development opportunities have been presented to team members and continue (i.e., learnings include: implicit bias, white supremacy construct, systemic racism, white fragility, and more). PPNorCal is proud to be an organization led by people of color. We have prioritized increasing our management and executive teams’ diversity to be more reflective of our front-line staff and the communities we serve.

DIVERSITY INDEX
Numbers matter as this indicates how reflective we are of the communities we serve.

| Executive Management Team | 75% |

| Senior Management Team | 73% |

We pledge to continue to deepen our commitment to further integrate DEI values at our worksites, with patients, our communities, and one another. This requires us to bravely stand up, continue the conversations, learn, and struggle together. We accept that this is ongoing work until real systemic change is achieved.
