

June 7, 2019

Dear valued patient,

After careful consideration of our organization's mission and a comprehensive analysis, Planned Parenthood League of Massachusetts (PPLM) has decided to permanently close its Fitchburg Health Center and reallocate resources to our other health centers.

PPLM will continue to serve patients living in Central Massachusetts with the same scope of high-quality sexual and reproductive health care services. We have doubled the hours of Marlborough Health Center which is now open six days a week and our Worcester location continues to be open six days a week as well. Since our founding, PPLM has always been here for the people of Massachusetts and we will continue to be here to serve our patients. This shift in resources will ensure that we can continue to meet the diverse needs of patients with high-quality compassionate health care and education programs.

If you are interested in continuing to receive services from PPLM, you will be able to access the same quality care at one of our other health centers. All PPLM health centers share an electronic medical records system, so you can be assured that the transition to a different health center will be seamless and easy.

Thank you for choosing Planned Parenthood League of Massachusetts as your health care provider. If you have any questions please do not hesitate to contact us at 1-800-258-4448.

Sincerely,

Planned Parenthood League of Massachusetts
