

# This is Who We Are

## Creating a Healthier World for Women, Men, and Teens

For more than a century, Planned Parenthood® has been one of the nation's leading providers of high-quality, affordable health care for women, men, and young people, and the nation's largest provider of sex education. Planned Parenthood health centers provide millions of people with contraception, testing and treatment for sexually transmitted infections (STIs), lifesaving cancer screenings, and safe, legal abortion. With a presence in all 50 states and Washington, DC, Planned Parenthood has 56 affiliates, which operate more than 600 health centers. Globally, Planned Parenthood supports local partners in 12 focus countries, reaching over 1.5 million individuals with reproductive health information and services. Women, men, and young people from every community and income level view Planned Parenthood

- An estimated one in five women in the U.S. has visited a Planned Parenthood health center.
- Planned Parenthood health centers provide health care that helps women prevent an estimated 400,000 unintended pregnancies in a single year.
- Planned Parenthood Global's partners reach 535,000 people through in-person educational activities and have reached more than 1.6 million people through the innovative and award-winning Global Mobile sites since its launch in 2016.
- Planned Parenthood websites, including Planned Parenthood en Español, receive an estimated 73 million visits in a single year.
- Of Planned Parenthood patients who report their income, nearly 75 percent live with incomes at or below 150 percent of the federal poverty level, the equivalent of \$36,900 a year for a family of four in 2017.
- Planned Parenthood affiliates provide the following services to 2.4 million patients, more than one-third whom are people of color, including more than 560,000 patients that identify as Latino and more than 380,000 patients that identify as Black:
  - family planning counseling and contraception to nearly 2 million patients
  - more than 1 million pregnancy tests
  - more than 280,000 Pap tests
  - more than 335,000 lifesaving breast exams
  - screenings to more than 75,000 women whose cancer was detected early or whose abnormalities were identified and addressed
  - more than 4.4 million tests and treatments for sexually transmitted infections, including more than 705,000 HIV tests, and diagnoses of more than 220,000 STIs
  - more than 730,000 emergency contraception kits
  - education programs and outreach to 1.5 million people
