

Planned Parenthood Gulf Coast

PPGC Legislative Session Updates – Week of 5/31/2021

All abortion bills have been pushed back. We are expecting them to be heard on Wednesday, June 1, 2021 at 9am, but this is always subject to change.

[HB 578](#) Abortion Reversal Bill: There is room here to persuade our lawmakers, and real opportunity to sway public opinion. While there is concern that this will turn into another study resolution, it wouldn't be the worst thing to happen. We are hopeful this will die in committee.

[HB 357](#) & [HB 423](#) Reporting Bills: There is a lot of testimony ready and our coalition has received support from Physicians for Reproductive Health. We are still seeking additional physician testimony to convey how problematic this would be for the relationship between physicians and their patients. Patients need to be able to rely on their physicians to not mislead them.

ACTION NEEDED:

Contact members of the [Senate Health and Wellness Committee](#) in opposition of these anti-abortion bills.
