Planned Parenthood Arizona promotes and protects every person's freedom and right to enjoy sexual health and well-being, to make reproductive choices, and build healthy, strong families. We create health equity for Arizona youth through improved access to high quality sex education and by building supportive family and community connections that encourage holistic health promoting behaviors.

**What we know:**

- Sex education is a human right that enables young people to protect their health, well-being and dignity.
- Sex education recognizes sexuality as an essential, lifelong part of our human identity.
- Sex education promotes educated, positive, healthy experiences and supports overall wellness.
- Sex education supports social and emotional learning.
- Sex education is suitable for each particular developmental stage and age group.
- Sex education is honest, complete, accurate, and supported by evidence.
- Complete sex education provides training and skills to teachers, parents, guardians, and caregivers.
- Sex education involves parents and increases communication in families; it does not take the place of sex education in the home. Our children win when parents are prepared, not scared.
- Sex education is inclusive of all students’ identities and experiences.
- Sex education decreases the risk of negative health outcomes such as: sexually transmitted infections, unintended pregnancies, and relationship violence.

**What happens when children get quality sex education:**
