Form 990, Part III, Line 4a, Program Service Accomplishments:

developed in peer-reviewed Guttmacher Institute research

(www.guttmacher.org/broader-benefits/), we estimate that the work of our health centers prevented approximately 7,500 unintended pregnancies in 2018. By reducing unintended pregnancies, miscarriages, ectopic pregnancies, and STDs, our work generated net government savings of \$24.5 million.

-Serving a predominantly low-income, underinsured, and young patient base. In 2018, 64% of our patients were low-income (at or below 200% of the federal poverty guideline, or \$24,280 for one person), 38% were living below the poverty line (\$12,140 for one person), 21% were uninsured/self-pay, and 32% had coverage through Medicaid or another public program. Our patient base was also overwhelmingly female (87%) and young, with 68% under the age of 30 (14% teens and 54% in their twenties).

-Ensuring access for uninsured/underinsured patients by delivering over \$8.3 million in free/discounted health care through our sliding fee scale program.

-Providing services as patient need indicates such as: 89,854 STD tests, 12,936 pregnancy tests, 6,237 insertions of long-acting reversible contraceptives (LARC), 5,382 breast exams, and 4,406 Pap tests.

-Enhancing and expanding care in multiple ways to better help patients with critical needs and improve their health and overall welfare. This includes: providing trauma-informed care; conducting enhanced psychosocial screenings and providing referrals for intimate partner

violence, depression, and substance use (for patients who screen positive for having or being at-risk of developing a substance use disorder, we provide a brief intervention and referral to treatment); growing a centralized care coordination program to help ensure that patients - especially the most vulnerable - receive the care and help they need; piloting an integrated behavioral health model in which we embed mental health professionals in our health centers (this currently involves 6 VT sites and we are developing the capacity for expansion); and continually enhancing contraceptive care by, for example, training all health center staff to provide high-quality, evidence-based contraceptive counseling.

-Achieving a very high level of patient satisfaction. Highlights of 2018 survey results include that: patients felt the services offered met their needs (scoring 95.8 out of 100 points), they were treated with compassion and respect (96.5/100), and our clinicians spoke using clear language (96.9/100). As a result, patients were extremely likely to recommend PPNNE to others (96.3/100).

-Advancing special proactive initiatives (as funding allows) to improve public health and reduce unintended pregnancy - with critical downstream impacts on individuals, families, and communities. Examples of this work over the past year include training health and social service professionals and expanding partnerships to reach incarcerated women, people with substance use disorders, and other at-risk populations.

-Launching a new education program - starting in Vermont - bringing 7 middle schools on board to implement an effective and comprehensive sexuality education curriculum (called Get Real) in the 18/19 academic year. We are advancing a scalable model of supporting and empowering partner teachers, as we work toward our long-term goal of achieving quality sexuality education across northern New England.

-Conducting a community needs assessment to identify the sex education needs of Maine's young people. Informed by our research and consultation with community organizations, PPNNE is preparing to move ahead with creating partnerships to advance education programming that addresses local needs.

-Developing and delivering sexual health workshops for parents, including a "train-the-trainer" workshop for professionals such as school nurses, counselors, and health teachers, so that they can begin offering these workshops - reaching more people and communities.

-Conducting over 300 multi-faceted outreach activities across our region to deepen referral relationships with other health and human service organizations, raise visibility, and bring services and education to more people.

legislation in each of our states. (Our Vermont, Maine, and New Hampshire legislation was signed into law in 2016, 2017, and 2018, respectively.) The legislation requires insurance to cover a year's worth of prescription contraceptives at one time and incorporates into state law a no-cost contraception provision. This increases access to vital health care, reduces gaps in contraceptive access, and supports women in achieving their reproductive goals.

-Defeating numerous state-level attempts to roll-back reproductive health access and rights in northern New England and mobilizing increased public support and activism to fight national attacks.

-Supporting campus organizing at colleges and working with volunteer action teams across our three states to deepen and grow grassroots organizing capacity.

-Demonstrating the power of our trailblazing social change model that uses persuasion science and "deep canvassing" to increase support for reproductive rights. In 2018, we successfully completed a rigorous field study with academic partners from Cornell, Stanford, and Yale. We also began helping partners start this work in other parts of the country.

Form 990, Part III, Line 4d, Other Program Services:

PPNNE's communications and marketing program works to increase awareness of PPNNE services, our sexual health expertise, and our accessible, affordable, and nonjudgmental care - leading to more vulnerable people receiving services. Our efforts include targeted advertising that resonates with diverse audiences and young people, with themes such as promoting annual exams/preventive care, LGBTQ services, Get-Yourself-Tested/STDs & HIV, free access to family planning services (through certain state programs for low-income people), birth control options, and more. Indicating the effectiveness of this outreach, last year our health centers brought in over 23,000 patients were new or hadn't been seen in the past three years, primarily low-income women and young people.

Expenses \$ 278,696. including grants of \$ 0. Revenue \$ 0.
